

Title: Retroactive Withdrawal Appeal Policy

Category: Academic Affairs

Responsible Cabinet Member: VP for Student Success/Provost

Purpose

The University recognizes that exceptional circumstances beyond a student's control may arise that prevent completion of academic responsibilities during a given semester. The Retroactive Withdrawal Appeal process provides a formal mechanism for students to request withdrawal from all courses in a completed term when such circumstances are documented and verified.

Scope

This policy applies to all undergraduate, graduate and professional students at the University who seek retroactive withdrawal from one or more academic terms after the conclusion of a semester in which final grades have been assigned. The policy outlines eligibility criteria, required documentation, submission procedures and the review process for such appeals.

It ensures that all students are provided with equitable consideration when extraordinary or unforeseen circumstances have significantly affected their ability to complete coursework or withdraw during the semester in question. Appeals are considered by the Office for Student Success, in coordination with the Office of the Provost.

Eligibility

To be eligible for a retroactive withdrawal, a student must demonstrate satisfactory evidence that they have incurred at least one of the following that impacted the semester from which they are requesting to withdraw:

- A serious injury or illness;
- Serious personal or family problems;
- Serious financial difficulties; or
- Permanent disability verified by the Disability Resource Center and diagnosed after the semester for which the withdrawal is requested.

Appeals are only eligible for those semesters which have already ended and final grades have been assigned. Appeals are only eligible if they are received within four (4) years from the last day of classes of the semester from which withdrawal is requested AND prior to graduation. Four (4) years is defined as four (4) consecutive periods of 365 days (or 366 if leap year) from the last day of classes for the semester for which the withdrawal is requested.

In extenuating and rare situations, the committee will review cases beyond the four (4)-year window with significant documentation and rationale for the delayed appeal.
